Selection Process for the Nursing Program

- Admission to the Nursing program is on a competitive basis due to the limited number of spaces available in courses that require clinical practice in hospitals and other healthcare settings.

- The number of seats can vary from year to year. Selection of students is made once a year after the JULY 1st application deadline. All students who meet the admission criteria and apply to the program are ranked according to the TEAS score and the prerequisite GPA. The highest ranking students are offered the available program seats on a conditional basis.

- PLEASE NOTE: Atlantic and Cape May County residents are given priority consideration in the selection process.

- Conditional acceptance by the Nursing program, should they meet the post-acceptance requirements, permits the student to enter the program in September of the year in which they applied. Students who are not accepted into the fall class will need to reapply to the Nursing program the following year and may retake the TEAS test or any prerequisite courses to improve the likelihood of success in the competition for admission.

Conditional Acceptance Process

Students admitted to the Nursing program will receive a conditional acceptance. Students are not considered accepted to the Nursing Program until the following requirements are met:

- Students must begin the program in the fall of the year they receive the conditional acceptance. Those who are unable to do so must contact the Admissions Office in writing to decline their seat and reapply to the program to be considered for a future class.
- Students conditionally admitted must complete the entire Nursing Program within a three year period.
- Students must meet the health requirements of the State of New Jersey and the clinical agencies that are used for clinical practice.
- Students’ Health Requirements include:
  - Physical Examination
  - Immunization Requirements: MMR, Varicella, and Hepatitis B (proof of injections and titers)
  - Tuberculin Skin Test (TST) or equivalent (PPD) must be updated annually
  - Influenza Vaccination (Flu Shot) required annually
  - Health Insurance – Required upon conditional acceptance and for duration of Nursing program
- Completion of an Assumption of Risk and Release Form, which indicates an understanding of hazards inherent to the healthcare field.
- Completion of a Criminal History Background Check (CHBC).
- Completion of Urine for Drug Screening (UDS).
- Completion of the CPR certification is required before entering the Nursing Program. The only acceptable CPR certification program permitted for admission to the Nursing Program is Basic Life Support for the Healthcare Provider offered by the American Heart Association.
### Computing GPA (Grade Point Average) for selection to the Nursing Program

Compute a Grade Point Average (GPA) based upon only the four prerequisites of the AAS degree in Nursing:

- English Composition I (3 credits)
- General Psychology (3 credits)
- Principles of Sociology (3 credits)
- Human Anatomy & Physiology I (4 credits)

The GPA computation is based on Quality Points earned per final grade in each course.

<table>
<thead>
<tr>
<th>Letter Grade</th>
<th>Grade Points</th>
<th>Credit Hours</th>
<th>Quality Points</th>
</tr>
</thead>
<tbody>
<tr>
<td>A-</td>
<td>3.7</td>
<td>4</td>
<td></td>
</tr>
<tr>
<td>A</td>
<td>4</td>

<td></td>
</tr>
<tr>
<td>B-</td>
<td>2.7</td>
<td>3</td>
<td></td>
</tr>
<tr>
<td>B+</td>
<td>3.3</td>

<tr>

</tr>
<tr>
<td>C</td>
<td>2</td>

</tr>
<tr>
<td>C+</td>

</tbody>
</table>

Multiply the points earned by the number of credit hours for each course, then add the total points earned and divide by 13 credits. The total Quality Points divided by 13 credits will give you the grade point average for your Nursing Program prerequisites.

*BIOL120 was renamed BIOL220, effective Fall 2016.*
