V. CALL TO ORDER EXECUTIVE SESSION

Chairperson Boyer stated that an executive session would be held after the regular Board meeting.
VI. REGULAR SESSION

Chairperson Boyer informed the Board that Dr. Mora would be presenting part of his President's Report now.

Dr. Mora informed the Board that the following two presentations would involve college employees, students and members of two different programs—Atlantic Cape Safe Youth Partnership (ACSYP) and Career Ladders—that we collaborate with.

Dr. Mora asked Dean Gentile to give information on the creation of the Atlantic Cape Safe Youth Partnership.

Dean Gentile stated that ACSYP is funded by a grant from the Department of Health and Human Services, Administration for Children and Families, Compassion Capital Fund Communities Empowering Youth program and is a collaborative project of The Richard Stockton College of NJ and ACCC (Institute for Community Development of Southern New Jersey). ACSYP builds organizational capacity in agencies, civic and faith based organizations that work to address various youth issues in Atlantic and Cape May counties. The training, consultation and technical assistance is free to partner organizations and available at a reduced or no fee to other community organizations. “This grant will help these organizations be more prosperous,” said Dean Gentile.

Ms. Jean McAlister, Associate Dean, Continuing Education Operations, who oversees the project, gave a PowerPoint presentation of the ACSYP grant. She introduced the individuals involved with the project: Ms. Linda Dolan, ACCC part-time grant writer; Mr. Alex Kupriavnov, Continuing Education Instructor, and Ms. Debbie Fricker, Financial Administrator, Atlantic Cape Family Support Organization. Dean McAlister said, “This is a collaborative effort where students also come together in a partnership to support the Atlantic Cape Family Support Organization. The grant supports the college mission and provides superior academic training. This grant enables the college to respond to the community and give back.”

Ms. Dolan gave a PowerPoint overview of the ACSYP three-year grant which was awarded in September 2006 for $730,000. This grant was collaborative rather than competitive and its purpose was to build the organizational capacity and sustainability of the funded organization. Some of the accomplishments to date are the completion of seven workshops and training, partnership agency organizational assessments, community needs assessment, establishment of the Foundation Center Resource Library (located at the
United Way), two conferences with future conferences planned and technical assistance provided with other nonprofit partner agencies. Over 350 individuals have attended these trainings.

Mr. Alex Kuprianov, ACCC Continuing Education instructor, spoke about the services and interaction the college provides for the various partnerships.

Ms. Fricker spoke of the positive impact the services provided by the grant have had on her agency crediting it with upgrading the organization’s technology infrastructure and providing staff training on how to operate and maintain new computer systems and hardware. She thanked the Board for its support of the program.

Dr. Mora thanked Dean McAlister and the speakers for their presentations.

Dr. Mora asked Dean Wexler to give information on the Third Annual Career Ladders Graduation presented by the NJ Department of Human Services Office of Human Resources Operational Excellence and the NJ Community College Consortium for Workforce and Economic Development.

Dr. Wexler said that the NJ Department of Human Services Career Ladders training is a noncredit to credit articulation delivered in a model that had been thoroughly evaluated by the Social Science Department and approved through the Curriculum Committee. Students who successfully completed the DHS training modules are awarded up to 12 academic program credits upon enrolling in our Human Services AS degree program. Of the over 100 students completing the DHS training statewide (via seven community colleges), 15 students attended ACCC.

Dr. Mora introduced Ms. Muriel McNeal of Woodbine as a current Career Ladders graduate and her husband, Charles. Dr. Mora asked Ms. McNeal to share a few words about the program.

Ms. McNeal thanked the Board for inviting her to the meeting. She shared how the program changed her life and that the program provided a true ladder to success for its participants.

Dr. Mora said that Ms. McNeal represented the class well and asked if there were any questions for Ms. McNeal from the Board.

_Secretary’s Note:_ Pictures were taken of Ms. McNeal, Chairperson Boyer and Dr. Mora.
