

President's Corner

Dear Atlantic Cape Alumni,

First and foremost, I hope that you and your families are healthy and safe. Over the past several weeks, the Novel Coronavirus (COVID-19)

has developed into a global pandemic that poses enormous and unprecedented challenges to our communities. I wanted to use this opportunity to reach out to you with an update on what we have been doing at Atlantic Cape to respond to this crisis and to continue to provide our students and community members with the services and support they need during this difficult time.

First, to protect the health of our students and faculty and to enable them to practice social distancing, all course instruction will be delivered online for the remainder of the Spring semester. We did not make this decision lightly, and in anticipation of the challenges it may pose for students, we have set up a number of support services that can be utilized remotely. Students that do not have their own personal computer will

be able to borrow a laptop from the College so that they can successfully complete their coursework at home. Additionally, our free online tutoring services have been expanded. Our bookstore has gone online with free shipping, and our library offers a wide variety of digital resources that are accessible 24/7. Our dedicated team members in Admissions, Financial Aid, and Counseling are ready to provide assistance by phone and email, and our Academic Advisors will be reaching out to every student over the coming weeks to schedule phone and video chat appointments.

Additionally, we are doing all that we can to address the essential needs of our community members through donations of food and supplies. Our campus food pantries have distributed food and Shop Rite gift cards to students in need, and additional packaged food items from both the campus food pantries and the Culinary program's storeroom have been donated to local food pantries and food banks. Our Nursing Program was able to donate its supply of masks, gloves, and other personal protective equipment (PPE) to AtlantiCare Regional Medical Center and Cape Regional Medical Center to protect our heroic

healthcare workers as they work tirelessly to care for their patients.

As we continue to navigate this extraordinary situation, it is more important than ever to come together as one Atlantic Cape family to support and take care of one another. If you are able to do so, please consider making a donation to the Atlantic Cape Foundation. These funds will provide critical emergency assistance to our students who have been adversely affected financially by this crisis. If you are interested in donating, please visit atlantic.edu/foundation or reach out to Kristin Jackson at (609) 463-3621 or kjackson@atlantic.edu.

I thank you for your continued support and I know that we will get through this together as one Atlantic Cape family. I encourage you to visit atlantic.edu/coronavirus for updates and additional information about the specific actions we are taking to protect and support our community.

Sincerely,

Barbara Gaba
